P5800L

Branch Cash Recycler

Self-owned cash recycling technology

Versatile Applications

Advanced NV Technology

Easy Maintenance

The P5800L is a compact size cash recycling solution that is integrated with GRGBanking's professional recycling technologies. It requires less cash replenishment volume, reduces cash in transit service frequency and minimizes operational costs. With its serial number tracking function, which is one of the main technologies of GRGBanking, it can help banks resolve conflicts with counterfeit notes between banks and customers. The P5800L also has a modern design for branch lobbies and gives come with a friendly user interface. It is an ideal solution for bank branches and retailers, where heavy cash transactions take place.
