

DT-7000

TCR71

Teller cash recycler

Self-made cash recycling technology

Serial Number Tracking

Premier Security

Multi-denomination support

Dual-operator support

As modern bank branches continue to improve, the efficiency, automation and recycling technology are in high demand for giving instant gratification for customers. By providing high processing speed, big capacities, and multi-denomination support capabilities, GRGBanking's TCR71 would be the favorable assistant for financial institutions to meet the requirements of branch automation to create the perfect environment for tellers to focus more on customer service and satisfaction.
